

OptimizationMethod

```
graph BT; NelderMead --> OptimizationMethod; StochasticOptimization --> OptimizationMethod
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'OptimizationMethod'. Below it, two boxes labeled 'NelderMead' and 'StochasticOptimization' are positioned side-by-side. A horizontal line connects the top of these two boxes, and a vertical arrow points upwards from the center of this line to the bottom of the 'OptimizationMethod' box, indicating that both 'NelderMead' and 'StochasticOptimization' inherit from 'OptimizationMethod'.
